

The most important thing during this pandemic is the health and safety of your members. SigEp chapters must follow the health and safety guidelines of their university, city and state as well as abide by the guidance from the Center for Disease Control (CDC).

The following list contains event ideas that can be adjusted to fit the guidelines of your campus and the needs of your chapter. The best way to create effective and valuable programming is getting your chapter to buy into an event. The below list contains event ideas that you can build on. Review the below list to find a few ideas that will work for your chapter, and also consider holding a brainstorming session with your chapter to expand upon the events listed below.

Virtual Events with Sororities or Other Student

Organizations

- YouTube yoga or yoga led by a campus rec trainer
